

About the Program

Timely enrollment into school systems allows educational support to students and their families but also can serve as an opportunity to recognize when children and their families need additional assistance. Unfortunately, for many families the cost and available access to needed school entrance requirements is a barrier to enrolling their children.

PAVE is a collaboration between NOVA ScriptsCentral, Mason & Partners (MAP) clinic and Fairfax County Public School (FCPS) System to provide free immunizations and other clinical services to help meet the school-based entry requirements for children.

Who we serve

We provide services for children Pre-K to 12th grade without insurance (or with Medicaid) who are enrolling into Fairfax County Public School.

Services Provided

Immunization assessment & vaccine education.

Foreign vaccination record translation.

Vaccine administration & documentation.

Our Partners

Other clinical services through Mason and Partners (MAP) clinic:

- o School physical exam
- o TB test

Project goals

- Expand access to immunizations for children
- Educate patients and families on the importance of up-to-date vaccinations
- Serve as an education and training site to future healthcare providers (pharmacy, nurse practitioner and nursing students)
- Improve long-term health outcomes of children enrolling in FCPS by providing coordinated, accessible services.

Since 2020...

1,100 +
Immunization
assessments
provided

740
Students
immunized

2,500 +
Immunizations
provided

What our community says about us?

"I'm so grateful with all the work you do here with our children. You are all so nice and helpful"
~Anonymous parent

"We really appreciate the service offered at the clinic. Everyone was very helpful. Our kids are now able to attend school on time and make friends."
~Anonymous parent

"I'm grateful for the volunteer opportunity at the clinic. I've met many individuals coming from diverse backgrounds and helping to vaccinate children. My experience as volunteer pharmacist helps me to play a role in helping to support the community"
~EA
Volunteer Pharmacist
